EXPERIENCE

UX/UI Designer | reemarc Inc.

Seoul, South Korea | Jul 2025 - Present

- Led product design across reemarc (B2C iOS/Android patient app) and Smile Solutions (B2B clinic SaaS), defining product structure, core user flows, interface patterns, and a scalable design system from early development to launch.
- Designed the B2C experience to support real care scenarios, introducing caregiver profile switching and patient-entered treatment logging; after iteration, the app reached 305 MAU and 80% sign-up completion.
- Restructured the B2B clinic SaaS to better support real-world clinic operations, improving clinic-led onboarding, appointment workflows, and patient communication.
- Partnered closely with engineers from product planning through launch to translate evolving requirements into shippable flows, resolve edge cases in real time, and establish a structured QA process that improved handoff clarity and implementation consistency.
- Contributed to scaling the platform from 11 to 19 partner clinics (+73%) across 3 countries, with treatment offerings expanded to 6 services.
- Owned and maintained the company's marketing website in Framer, translating brand positioning into clear and cohesive web content.

Designer | Korea Beauty Vocational Education Institute

Seoul, South Korea | Sep 2020 - Aug 2021

- Developed a responsive website and led visual design across posters, certificates, packaging, and promotional materials to strengthen the organization's digital presence and brand consistency.
- Managed the organization's YouTube channel end to end, increasing views from 200 to 4,000 (+1900%).
- Facilitated overseas buyer meetings and factory communication in English and Chinese, aligning product specifications, pricing, and trade terms across stakeholders.

Web Developer Intern | Raymond James Ltd.

Toronto, ON | Sep 2019 - Dec 2019

- Built and maintained enterprise web experiences across Sitecore and SharePoint, supporting dynamic user-facing updates in a detail-sensitive corporate environment.
- Collaborated with technical stakeholders to review web updates, identify issues, and ensure accurate implementation across digital properties.

Digital Designer Intern | Maple Leaf Foods Inc.

Mississauga, ON | Jan 2019 - Apr 2019

- Designed internal brand assets across posters, banners, social content, and motion templates, and created a PowerApps style guide to improve visual consistency.
- Improved UX and visual design for an internal iOS app used in factory operations, contributing to a more cohesive and user-friendly experience.
